10 am to 1 pm & 3 pm to 6 pm (All times are in IST)

Neuro-Linguistic programming (NLP) - The Science of Excellence & Art of Change

NLP is the art and science of personal excellence, derived from studying and modelling experts in different fields who achieved outstanding results. NLP has a set of practical, simple and easy techniques for rapid personal growth and influence. It is the study of the structure of subjective experience. NLP is about using what works and discarding what does not.

"If you always do what you've always done, you'll always get what you've always got!"
"If what you're doing isn't working -- do something else!"

While other approaches tell you just WHAT you need to do, *NLP is a HOW-TO technology* and hence the learning is experiential. The participants practice various techniques in pairs or groups and experience it themselves.

NLP is extensively used in Business, Life Coaching, Executive Coaching, Performance Coaching in Sports & Fine Arts, Therapy, Education and more... The list is long but not exhaustive.

Workshop Dates and Time

13th, 14th, 20th, 21st, 27th & 28th of February 2021

10 am to 1 pm & 3 pm to 6 pm (All times are in IST)
